Verify Your Identity on a Video Call
No Identity Left Behind

WHY AM I SEEING THIS?
ID.me’s primary identity verification process consists of several automated checks to protect against identity fraud. However, some people – through no fault of their own – can’t get past these checks. There are a number of reasons people might run into issues, including:

1. ID document photo may be blurry or shadowed
2. Data sources – like credit bureaus – may have incorrect or outdated information
3. Credit may be nonexistent or frozen
4. Phone number may not be associated with your name
